## Additional Information YouthLAB

- **Why we're doing this:**

We know that mental health issues are significant for young people in BC. Anxiety, depression, eating disorders, difficult family circumstances, trauma and abuse can impact every aspect of the lives of youth. We also know youth often don't get the help they need because they don't have the money, knowledge, transportation, legal status or safety to reach out. We want to do a better job of letting your peers know that they are not alone in their experience and that support is available.

- **Why we need you:**

We believe youth know best how to help other youth. YouthLAB is an opportunity to reach out to other youth in meaningful and relevant ways through education and community arts engagement.

- **Who we are:**
